TESTIMONIALS

Really enjoyed the event, variety of topics, multiple networking opportunities, top level professionals. Good work!

It was an honor and a privilege to be able to take part!! The atmosphere, the people, the opportunities to speak directly with "the right" people were really great, and made for making new, interesting contacts.

Great event, a fantastic combination of quality networking, good food, and drinks!

VARIETY OF TOPICS

NETWORKING OPPORTUNITIES

OVERALL OPINION

WHY ATTEND?

Engage with the forefront of Advanced Air Mobility (AAM) as we delve into the expansion of drone operations in our cityscapes. Navigate the complexities of urban airspace governance, which remains a mosaic of evolving regulations and innovations.

Aerial Cities provides a distinguished arena for influential figures to influence and understand the evolving framework of our airspace.

It's a chance to meet the experts, share ideas with **city planners, decision-makers, users and government representatives**, and help shape how drones will fit into our future cities.
